Virtual School Trip Ideas You Can Do For Free

A Complete Guide of Free Home Learning Teaching Resources, Teaching Ideas & Activities to connect Arts & Culture with the curriculum.

Introduction.

This is a complete guide of 40 virtual school trip ideas your school can do for free!

Summer term has always been a brilliant time to take a school trip. School trips provide a fun day out and a unique learning experience. Unfortunately, this year school trips are no longer possible. However, that doesn't mean we still can't take advantage of what they can offer.

We've gathered 40 shows, online exhibitions, virtual tours and more that you can use to take a virtual school trip with your class. Each school trip idea gives their subject links and Key Stage suitability, plus their accompanying free teaching resources. All of these virtual school trip ideas can be accessed for free at school or by your students to help them with home learning.

The School Trip Community was created to share the unique educational value that arts & cultural venues can offer. They may currently be closed to the public, but that doesn't mean we still can't enjoy the wealth of educational value and free teaching resources they can offer.

We work with thousands of teachers across the UK to help them bring arts & culture to life. We share free teaching resources such as this, as well as news, teaching ideas, tips and guides.

Get access to these learning resources and more, by [signing up to our weekly newsletter – it's free!](#) For even more resources, ideas and activities see our [Free Teaching Resource Library](#).

If you ever have any questions, want to work with us or are looking for something specific. Please do get in touch!
